BENEFITS

A great opportunity to Extend the Reach of Your Microsoft Dynamics NAV solution

- **Extend the reach** of the Dynamics ERP solution within Your organization by allowing people who do not require Full User access to the system to perform multiple Limited User or occasional self-service tasks

- **Take advantage** of the new client types in Microsoft Dynamics NAV 2013 to enable more lighter usage scenarios in Your company

- Users who only require limited functionality are now able to **leverage many options** to use the Dynamics NAV solution

- Provide **affordable access** Dynamics NAV business logic and security through portals, Microsoft Office, Microsoft SharePoint or other means

- Enable your people to easily **participate in relevant business processes**

Limited User

Limited User licenses provide users full read, but limited write, capabilities to all of the licensed solution functionality through any and all modes of access including the Windows Client. The Limited User license is designed to give customers a lower-cost alternative for extending ERP to users who only need to perform lighter usage tasks.

These are the predefined tasks enabled through the Limited User License:

### Job role: Receptionist, Personal Assistant

Write tasks enabled:
- Update customer or employee information

Read tasks might be:
- Look up
- Run reports for management
- Track status of a delivery
- Monitor KPIs

Job role: Remote Salesman

Write tasks enabled:
- Create and send a sales quote to a customer on site
- Set up a new customer directly in Microsoft Dynamics NAV
- Create a sales order

Read tasks might be:
- Run a sales report from within Microsoft Dynamics NAV
- Track the status of the sales pipeline

- **Extend the benefits** across the organization at a fraction of the full user price

- **Increase your business productivity** and collaboration by combining Microsoft Dynamics NAV with SharePoint technologies like BI, Search, Workflow, and Document Management

- Allow employees to view or **update their personal data**

- Run custom reports, charts and KPI's to **enable business insight** for all your employees

- **Connect people and systems** using the interoperability and customization capabilities of Microsoft Dynamics NAV and run a more efficient business

Job role: Remote or Light purchase agent

Write tasks enabled:
- Create a new purchase order in any client for Microsoft Dynamics NAV
- Create a new vendor
- Create a new purchase invoice

Read tasks might be:
- Keep track of delivery of purchase orders
- Access to supplier details in Microsoft Dynamics NAV

Job role: Consultant

Write tasks enabled:
- Register time on a service via any client from Microsoft Dynamics NAV
- Register time on a project via any client from Microsoft Dynamics NAV

Read tasks might be:
- Manage projects and reources spend
- Interact with project team members directly in Microsoftfrom Microsoft Dynamics NAV

NOTE: A previous version of this document listed the warehouse worker as a Limited User role. This role has become an ISV device CAL user. The ISV Device CAL is for warehouse devices and provides full access through the warehouse device. For more information on ISV Device Cal, please contact your Microsoft representative.

Microsoft Dynamics NAV

TECHNICAL RESTRICTIONS OF THE LIMITED USER

READ RIGHTS	**"Read"** access to data contained in the ERP solution through any client accessing the application via the Microsoft Dynamics NAV Application Programming Interface (API) including but not limited to the Microsoft Windows client for Microsoft Dynamics NAV, the Web Client for Microsoft Dynamics NAV and the Microsoft Dynamics NAV Portal framework for Microsoft SharePoint.
